Tot 11TH ST. N.W. For sale by druggists—price, Soc. per bottle. REFERENCE TO ATTORNEY

Mr. Liste Morrison of the War Depart-ment several days are invited the attention of the Distric Commissioners to the de-termination of the Washington Traction

is understood the commerciants of the pulsation to the autorney for the District for an opinion.

"My home," wrote Mr. Morrison to the Commissioners, "is at Takoma Park. At present I receive six tickets for a quarter, and one ticket is all that is required from Takoma Park to the corner of 16th street and New York avenue, transfers being given at the old stables on Brightwood avenue and at 3th street and New York avenue. Under the proposed arrangement I will receive four tickets for a quarter, and one of said tickets will carry me between the points heretofore mentioned, Takoma Park is an increase of 30 per cent on each fare. The Capital Traction Company carries a passenger from Chevy Chase Circle to 15th street and New York avenue for one fare of 5 cents cash or one ticket at the rate of six for a quarter. The haul in both these cases is about the same—if anything, the Takoma Park line is the shorter.

"I give you the above facts and request of the cents cash or one ticket at the rate of six for a quarter between Takoma Park, D. C., and the corner of 15th street and New York avenue. In this connection, it is also noted, that the same methods and rules apply in the case of a passenger who takes the carse at 17th and H streets and desires to travel as far as Woodley Lane, or a street of the courtesy of any early reply to the above query."

\*\*Opinion of Inspector.\*\*

Opinion of Inspector.

The Commissioners first referred Mr. Mor-ison's communication to Mr. L. P. Brad-haw, an inspector in the engineer depart-

anned in the act of Congress, its name bemanned in the act of Congress, its name beincreat.

"Thus far, therefore," continues Mr. Bradshaw, "consolidation not having been effected under the act, these roads at the
present time are operating as independent
systems, under their own charters, with all
the rights and privileges conferred thereby, so that, answering specifically the
writer's question regarding the Hrightwood
road, whether or not, under existing law,
act more than on section Company can exnet more than on section Company can exact more than on section Company can exact more than of section Company can excone ticket at the rate of six tickets for 25
cents between Takema Park and 15th street
and New York avenue, the language of
this company's charter and that of the act
of February 23, 1856, providing for the issuance of trainsfer, coupons between this
and the Metropolitan road, here quoted,
said company shall receive a rate of fare
for each continuous rice on the passenger
for each continuous rice on the passenger
for each continuous rice on the passenger
cents; that the Brightwood Railway Company \* \* and the Georgetown and Tenleytown Railway Company be and they
are hereby, respectively, authorized and required to sell four coupon tickets for 25
cents, good for one continuous rice in the
District of Columbia over the lines of said
companies and the lines of the Metropolitan
Railroad Company, indicates that it can,
bus the sell four coupon tickets for 25
cents, than server and the second and required to sell four coupon tickets for 25
cents, than the respectively, authorized and reposition of Columbia over the lines of said
companies and the lines of the Metropolitan
Railroad Company; indicates that it can,
the respectively over the Metropolitan and its connecting lines, must
either pay two 5-cent fares or two tickets
at the rate of six for a quarter; nor yet
does it appear from the following language
of the act authorizing the consolidation
of the property or franchises

Gaillard, the acount Engineer Commission-er, has some doubt as to the conclusion reached by Capt. Newcomer, for he has recommended to his associates that the question be referred to the attorney for the District for an opinion, and this refer-ence will, it is understood, be made.

Another Word for the Traction Co. To the Editor of The Evening Star: The recent announcement of the inten-tion on the part of the Brightwood railway management to increase the fare on that tion on the part of the Brightwood railway management to increase the fare on that road to 6% cents brings out, among other protests, the charge that the officers are about to cripple the earnings of "the best and most regularly paying road of all the suburban lines of the District." Let us see how that statement holds water. From official figures at my command 1 find that the Brightwood company had a deficit in the year 1846 of éxactly \$16,602. In 1895 the deficit was \$10,419. In 1896 the loss was \$10,523. "The shortage in 1897 was \$3,627. In 1898 the road was short \$5,270 or an amount of the paying the property of an among the short of pay expenses. The short of the paying the short of the paying the short of the property, having, it is stated, spent more than the original cost of the road in betterments, it must be a source of wonder where the great profits from its operation come in. Certainly the traille has not increased to shave been made up and interes deficiencies that the case when the bonds of the holding company are selling thirty per cent less today than when they were originally issued.

There is not the silghtest doubt in my
